

RO Portable Counter Top Water Purifier Direct Drinking Water Machine

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Envitek
- Certification: ETL CB EMC LVD ERP ROHS
- Model Number: AR303B-75G
- Packaging Details: color box+master carton
- Delivery Time: 30
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 10000 PCS/MONTH

Product Specification

- Material: ABS
- Color: White Or Customize
- Function: Hot Water
- Installation: Desktop
- Application: Home Use
- Custom: Accepte
- Highlight: counter top water purifier Machine,
Direct Drinking counter top water purifier ,
ro portable water purifier Machine

Product Description

Countertop RO Water Machine: The Water Purification Elf in the Kitchen

In the corner of your kitchen, there is a countertop RO water machine waiting silently. It is like a mysterious water purification elf, always ready to send you pure water.

Its shape is compact, and the appearance is fashionable and simple. It can easily blend into your kitchen decoration, not flamboyant but unique.

RO technology is its core magic, which can deeply purify water and remove all possible pollution. Whether it is fine impurities or hard-to-detect chemicals, none can escape its filtration.

Its multi-stage filtration system is like a series of solid defense lines. The pre-positioned PP cotton filter element first blocks the invasion of large particles, and the activated carbon filter element then adsorbs odors and harmful gases. The final RO membrane gives the ultimate guarantee of water quality.

This water machine is easy to operate. With a gentle press, pure water flows out continuously.

For example, when you want a cup of cool direct drinking water on a hot summer day, it can satisfy you instantly; when you need clean cooking water to prepare dinner for your family, it can also supply it at any time.

The countertop RO water machine fills your kitchen with a pure atmosphere.

Product Specification:

Model	AR303B-75G
Filtration Capacity	11.8L/h
Rated Power	48 W/2150W(220V)
Purification Capacity	1500L
Source Water Tank	5.0L
Product size	L461*W236*H411mm

Product Features:

- Counter top reverse osmosis water filter system with pitcher in one full set
- No assembly required, no installment, easy to use
- 5 Levels of filtration, removes up to 99% of all contaminants
- 4 stage water temperature with instant heating system in 3 seconds
- Quantitative water setting: 150ml/250ml/Continuous
- LED screen displays real time filters status and TDS value
- Water-saving designed
- UV C light: removal of bacteria, viruses, and mold spores
- Child Lock
- Wi-Fi for option

Product Details:

Countertop RO Water Filtration System

APPLICATION

NO PLUMBING OR INSTALLATION REQUIRED

No installation nor plumbing required,
to place and easy to move around

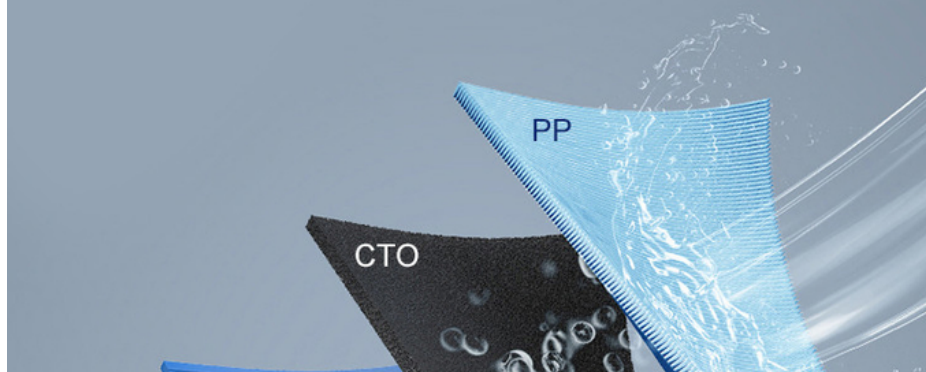

TOUCH CONTROL AND DIGITAL DISPLAY

LED screen displays real time filters status, temperature of the water, water volume and TDS value

4 STAGES FILTRATION SYSTEM

4 Levels of filtration, PP+CTO+RO+CTO,
bring you unlimited ultra-fresh, clean, great-tasting water

Stage1:Pre-filter (PP) removes big particles of dust, mud and rust stains.

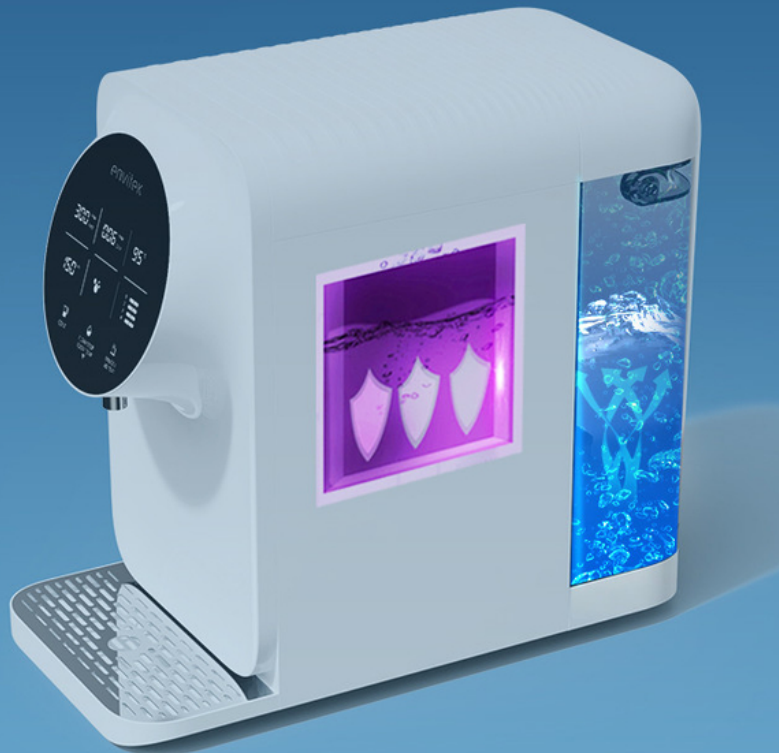

Stage2:The CTO filter eliminates unseen dregs and harmful odors.

Stage3:The High grade 0.0001 micron RO filter removes up to 99.9% of contaminants including chlorine, lead, heavy metals, fluoride, VOCs, chloramine, etc.

Stage4:The post-carbon filter (CTO) help improve the taste of the water

UV GUARD PROTECTION

As an additional stage of purification, the UV light to further inactivate bacteria, viruses and parasites to deliver safe water
