

Efficient True Hepa H13 Option Air Purifier for Bedroom

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Envitek
- Certification: ETL CB EMC LVD ERP ROHS
- Model Number: KJ050GE-C7
- Packaging Details: color box+master carton
- Delivery Time: 30
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 30000 PCS/MONTH

Product Specification

- Name: Countertop Air Purifier
- Feature: Timer Setting
- Control: Touch Control Panel
- Voltage (V): 100-240V 50/60 Hz
- Type: Hepa-Filter
- OEM&ODM: OK
- Highlight: efficient hepa filter air purifier, bedroom hepa filter air purifier, countertop air purifier

Product Description

Your Key to Fresh Air: The Ultimate Small - Space Air Purifier

Fed up with stale air in your small space? This air purifier is here to help!

Its compact design fits perfectly in 6 - 10 square - meter rooms like bedrooms or studies. You can easily place it on a side table or shelf.

It combines a high - quality Hepa filter with carbon, effectively catching dust, pollen, and tiny particles. It also gets rid of bad odors and harmful gases like formaldehyde. After using it in a newly renovated room for a week, the paint smell is greatly reduced.

Using it is simple. It has 3 - speed settings, a quiet sleep mode (max 55dB(A)), and a 2 - 8 hour timer. There's a filter - changing reminder, a soft night light, and an option for negative ions.

Best of all, it's energy - efficient, using only 10.5W. Enjoy clean air without high electricity bills. Don't let a small space or bad air stop you. Get this air purifier today!

Product Specification

Model	KJ050GE-C7
Sound Level	<=55dB(A)(Max)
Rated Power	10.5 W
CADR rate	50CFM (85m³/h)
Product size	φ200*H254mm
Area coverage	6-10

Product Features

- Hepa filter with carbon (True Hepa H13 for option)
- 3 speeds and sleep mode
- 2,4,8hours timer setting
- Filter changing reminder
- Night light
- Quietly operates throughout the night
- Negative ions for option

Hepa Filter Working Principle

Hepa filtration is a commonly used filtration technology in air purifiers. The Hepa filter is composed of very fine organic fibers interwoven together, has a strong ability to capture fine particles, has tiny pores, a large adsorption capacity, and a high purification efficiency.

The working principle of the Hepa filter is that when the air containing dust particles passes through the Hepa filter, the suspended particles in the air will be blocked outside, thereby playing the role of filtering and purifying the air. It can effectively filter particles of 0.3 microns in the air. The filtering effect on particles $\geq 0.3\mu\text{m}$ can reach 99.9%, and the filtering effect on PM0.1 particles can reach 99.99%.

The higher the grade of the Hepa filter, the better the filtering effect. Generally, air purifiers on the market use filter elements of grades H12 and H13. Hepa filters can also be combined with other filtration technologies, such as activated carbon filtration, to improve the performance of the air purifier.

KJ050GE-C7 HEPA-type filter

Pre-filter block large airborne pollutants

HEPA filter kills more than 99.5% of tiny air borne pollutants

Activated Carbon filter target smells and smoke

3 IN 1 COMBO FILTER
